Quote of the Day		

(Optional) Tips & Suggestions for Teachers
- do not elongate short vowels even for tune (adjust tune instead) - When reading multiple words (as in normal recitation), it is easier to control short vowels if you think you are reading one long word instead of a combination of words; just keep moving to the next word as if it is part of the previous word; this helps maintain fluency as well.)
(Optional) Ideas that may be offered to mothers to make it easier/fun to teach kids
